

Food from your food waste

Did you know that you can have the food waste at your London office, school, hospital or restaurant collected and composted by a reliable, cost effective social enterprise?

Our Service

Aardvark Recycling provide a collection service to meet your individual business requirements. Our social and environmental projects help you address your commitments to protecting the environment. They also enhance social cohesion, offering direct support to local community groups.

What's in it for you?

- A regular, easy to use service that will enhance your existing on-site recycling and help you recycle as much as possible
- A flexible service to meet the changing needs of your business
- Clean bins provided with each collection
- Detailed monthly reporting and ongoing support
- Demonstrate your commitment to protecting the environment and supporting social projects
- Free compost

Our commitment to the Environment

- To stop food waste ending up in landfill. Londoners produce 4m tonnes of waste every year – enough to fill an Olympic swimming pool every hour of every day!
- Food waste in landfill produces the greenhouse gas methane, which is 21 times more harmful than CO₂
- Aardvark Recycling produces high quality compost from food waste reducing its impact on climate change

Our Social Projects

- Redistributing high quality compost to local food growing, environmental and education projects
- An affordable fruit and vegetable box delivery service
- Supporting and building partnerships with local community groups
